2012 Scholarship Fund

USC’s first philanthropic project was the 2012 Annual Tax Appeal. You will be pleased to know that the funds were used to provide scholarships for six worthy recipients from disadvantaged backgrounds who are currently enrolled in the USC pathway to university. Those who gave so generously can feel satisfied they have provided educational opportunities that were beyond the reach of these students.

Thank you for making a personal commitment to future generations, thus enabling USC to provide opportunities to sponsor, foster and mentor our future thinkers and leaders.

University Senior College
Student Highlights

USC is currently the most significant feeder school to the University sector in South Australia, in particular the University of Adelaide.

- Over the past few years a total of ten USC students have won a prestigious Vice Chancellor’s Scholarship to study at the University of Adelaide: Alex Antoniou, John Connell, Julia Conway, Robert Dickinson, May Huynh, Aswin Joy, Caitlin Langford, John Makestas, Tam Nguyen and Charlotte Pascoe-Purvis.
- Shayan Afshar and Carolyn Wadey each secured a SANTOS Scholarship to pursue Petroleum Engineering at the University of Adelaide.
- Menila Angelo-Falkner won a full scholarship to study music at the Sydney Conservatorium.
- Phoebe Paterson de Heer was awarded the Tennyson Medal for English Studies in 2009.
- Joshua Ahn won the Way Medal for Chemistry in 2012.
- Ben Bai was awarded the Jewel Stevens Scholarship to study classical piano at the University of Adelaide.
- The 2011 and 2012 Year 12 cohorts each secured a total of 36 Merit Awards in the SACE examinations.
- For the past three years 90+% of USC graduates have received a first preference university offer from SATAC.

University Senior College
Old Scholar Testimonials

"USC was the absolute best thing I have done for my education. It has given me a work ethic and a social network that will enhance my enjoyment of tertiary education for years to come.

Clara, USC Class of 2012

"I can honestly say that University Senior College, its staff and its students, were the most welcoming and supportive community I’ve ever been lucky enough to be a part of.

Sam, USC Class of 2006

"Attending USC changed my life and helped me get to where I am today.

Josh, USC Class of 2004
How can you assist University Senior College in 2013 and beyond?

Option 1: Special Building Project

$1.5 Million Upgrade to Jordan Building Science Laboratories

The College Council is proceeding with the development of four new laboratories in the Jordan Building, commencing in the second half of 2013. This is an exciting development that will add much to the quality of the USC learning experience.

This project will deliver:
- state of the art laboratories to support Chemistry, Physics and Biology;
- more flexible space in a modern physical environment;
- contemporary information, communication and learning technologies to support student learning.

This redevelopment is scheduled for completion at the commencement of the 2014 academic year.

Science Laboratories Founding Benefactor

For any gift of $1000 a named plaque will be displayed in the Jordan Building to acknowledge support as a Founding Benefactor. Sponsored rooms and facilities are also available. Please contact the Development Office for more information.

If you are interested in our plans, we welcome your call and would be pleased to show you the proposed development.

Option 2: Scholarship Program

Scholarships play a critical role in bringing together a diverse group of young people with very different talents, backgrounds and experiences. This eclectic mix of energetic and enthusiastic young minds adds greatly to the quality of the learning experience at USC.

Your gift to the Scholarship Program will:
- be applied to the area of greatest need;
- help provide an opportunity for students who may not otherwise be able to attend USC;
- help maintain a vibrant mix of students from a wide range of schools across Adelaide.

You may direct your gift to:
1. support study in a particular subject or career pathway.
2. support students from remote areas.
3. support disadvantaged students.
4. support indigenous students.

Named Scholarship opportunities exist. To discuss in more detail the different options available with regards to creating and funding your own Named Scholarship please contact the Development Office.

Level One, Jordan Laboratories

Level one, Jordan laboratories would be pleased to show you the proposed development.

Please contact the Development Office for more information.

Benefactor. Sponsored rooms and facilities are also available.
