
USC COUNCIL REPORT 2022

Having joined the USC Council in 2021, I found myself fast tracked into the position of Chair for 2022. As a past parent, I have reacquainted myself with the College and note that the original charter remains, and that is, to provide students with a safe yet challenging environment to learn and grow, one in which students learn with like-minded peers who have university in their sights.

The work of the Council has been focused on the future strategic directions of USC, while we continue to support the present day goals of students and staff. This year, Council's work on facilities saw the birth of Raw Space, the new home for Music on the ground floor of the Parc Arcade building.

We have also begun developing the foundations for our future Masterplan, which will guide our facilities development and support curriculum in the future. Consequently, we decided to build on the success of the introduction of Year 10 and increase our enrolment intake for 2023 to 100, while continuing to offer our unique senior secondary pathway at Years 11 and 12.

Enrolments across all three-year levels are strong, due to the strategic work of key staff in the marketing and recruitment of students. Of course, this work is made easier by the dedicated staff, both academic and administration, who make student learning and wellbeing their focus.

I take this opportunity to thank all staff at USC for their ongoing professionalism and care. Our students are very fortunate to be guided by such professionals.

To the students of 2022, best wishes to our graduates. I wish you every success in the future. To our current Year 10 and 11 students, we look forward to your achievements in 2023.

Dr Paul Dalby
Chairperson
University Senior College
