WELCOME, YEAR 10s!

University Senior College, always a trendsetter in senior secondary education, now includes Year 10 as part of its learning experience.

Year 10 at USC offers an exciting opportunity and significant flexibility for students who require acceleration and challenge in their learning. The USC Year 10 experience combines a range of Year 10 and some Year 11 subjects and, most importantly, provides a learning environment where everyone wants to learn.

Our Year 10 class size is capped at 20. You'll be in classes large enough to encourage debate and explore new ideas, but small enough so you receive the attention you need to begin your senior years of high school in a positive and exciting way.

Our teachers understand there is much more to learning and to young people today.

BE INSPIRED BY GREAT TEACHERS

Your teachers are recognised as subject specialists with a deep knowledge, experience and passion for their areas.

At USC, you'll learn to take responsibility for your learning, as well as learning to work more independently and effectively with others. You will also have the possibility of one-on-one sessions with your teachers. We will give you the tools and opportunities to take your learning to another level.

THERE'S A WHOLE WORLD OF KNOWLEDGE AND GROUNDBREAKING ACHIEVEMENTS WAITING FOR YOU

LEARNING THAT PREPARES YOU FOR UNI AND LIFE

Naturally, your studies will include English, Mathematics, the Arts, Sciences, Humanities and the PLP. As we are a school that is focused on getting you on your pathway to uni, we know that other subjects like Philosophy, Ethics, Civics and Entrepreneurship are critical also. They challenge your thinking while developing your confidence to express yourself, take control of your learning and prepare you for life.

GET YOUR HEAD IN THE GAME

You'll experience learning in the centre of our city and on the grounds of the University of Adelaide. The State Library, Art Gallery, Museum and Zoo are easily accessible and will be a natural part of your classroom.

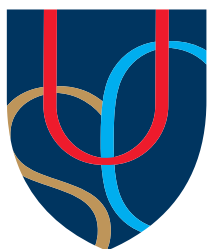

Thanks to our unique partnership with the University of Adelaide, you'll meet and learn from staff at the uni and be able to visit and use the uni's facilities.

WE KNOW HOW TO MAKE YOUR LEARNING EXPERIENCE PURPOSEFUL & STIMULATING

Our adult learning environment starts with simple things like no school uniform or bells, addressing staff by their first names and having flexibility in your day. These things are designed to help you to develop into an independent and successful learner in a mutually respectful environment.

Our mentoring and wellbeing programs are designed to support you to be the best version of you. We understand that to learn, you need to feel good about yourself and your studies. Our mentoring program is based upon the principles of positive education and our USC Graduate Attributes, while our school value of mutual respect drives all we do.
